

# Elevate (1512)

High yields for spring and early summer harvest in coastal regions.

A high-quality and versatile product for the box or bulk grower/shipper.

Elevate (1512) is a large heading iceberg type for spring and early summer harvest in coastal regions of California. In multiple trials it has shown superiority over the competition, with its high yielding features of large head size, big vein tolerance and tip burn tolerance. Elevate (1512) will take your yields to a new high with its top-notch genetic package and Pinnacle Seed's quality control program.
