

Haymaker

High yield for most difficult harvest window in the spring transition in the Desert and summer/fall harvest season in the Central Coast regions

A versatile product that can be utilized for both box and bulk markets

Haymaker is a superior and uniform iceberg variety for some to the most difficult harvest windows. Its uniformity, texture, low core, complete head coverage, and holding ability make it a “TKO” in its ideal harvest windows. Haymaker is a favorite for growers and shippers that harvest either box or bulk iceberg.

TYPE: iceberg

REGION: coastal and desert

WET DATES*:

Desert: Dec 5 – Jan 15

Coastal: May 1 – Aug 5

Product Features

Uniformity

Slow bolting

Strong heading & thick texture
