

Latitude

High yields for the coastal region

A high quality and versatile product for the box or bulk grower/shipper

Latitude is a unique and novel head lettuce variety. Latitude has been developed for the client with a need for a high quality head of lettuce, Verticillium resistance, and a high tolerance to tip burn. Over the last several years, during evaluations in Pinnacle Seed's rigorous research program, Latitude has displayed outstanding yield and shipping qualities in the months when Verticillium can be at its highest levels. Latitude is a great head of lettuce on its own, and with a strong resistance package, gives the client peace of mind and flexibility when designing planting schedules.

TYPE: iceberg

REGION: coastal

WET DATES*:

Coastal: March 15 – Aug 5

COMPARISON VARIETIES:

Armstrong, Steamboat, Spyglass, Black Belt

Product Features

High resistance to Verticillium r1

Strong heading

Flat ribs & low core
